PROMINENT PHYSICIAN

Secures New Pine Product—A Boon to
 Consumptives and People With Se-
 vere Coughs and Colds—Heart of
 Tree is Cut Into Small Blocks.

The heart of the tall pine tree is cut
 into small square blocks. This is the
 method pursued by a prominent phy-
 sician in his process of obtaining what
 is known to druggists and doctors as
 Concentrated oil of pine. Subsequently
 the vital juices are extracted by hy-
 draulic pressure and go through a
 refining and condensing process, and
 yield this wonderful curative oil of
 which a great deal has recently been
 written. It has proven a most certain
 remedy for lumbago and uric rheuma-
 tism. It also makes a splendid salve
 to be applied externally by mixing it
 with lard or vasoline. But for the
 quick cure of coughs and colds it has
 no equal.

For this purpose one-half ounce of
 the Concentrated oil of pine is mixed
 with two ounces of glycerine and half
 pint of good whiskey. Must be well
 shaken and used in tablespoon doses.

COUNTY COURT TURNS OUT GRIST

MANY OWNERSHIP PLAT BOOKS
 MADE CONTRARY TO LAW—
 \$14,900 ROAD IMPROVEMENT
 CONTRACT LET.

The county court met yesterday in
 the county court room and turned out
 quite a grist of business.

A. W. Dunkin appeared before the
 court and stated that a 30-foot bridge
 would be sufficient on the Elk Creek
 road over the stream of that name, if
 it was placed to the right of the present
 bridge. The court accepted the
 suggestion and agreed to pay Mr.
 Dunkin \$70 for the bridge and the
 necessary grading.

The court finds that in making own-
 ership plat books for the use of the
 county assessor that many persons
 have platted tracts of land in lots and
 tracts and now sell and make deeds
 by description, referring to these lots
 and tracts and the court gives it its
 opinion that this is contrary to law and
 many will be unable to locate their
 lands by these deeds. All plats should
 be registered.

The county judge was authorized to
 insure the new court house and the
 building materials used there for
 \$50,000 at the rate of 2 per cent for
 three years.

Mrs. Michael Cody was allowed an
 allowance of \$5 per month.

The county judge was further in-
 structed to insure the lumber belong-
 ing to the county in the Nehalem
 Valley for \$2000.

The supervisor of rural district No.
 15 was instructed to have the Beneke
 road improved, the costs not to ex-
 ceed \$300.

It was ordered by the court that the
 road from the railroad crossing to the
 little bridge near the Warren gate on
 the road between Warrenton and
 Flavel be planked with 2x12 planks.
 Mr. Warren to lay the planking with-
 out expense to the county and the
 county to furnish the planks. The
 clerk was instructed to place the order
 for the planking with the Kelley Lum-
 ber Company of Warrenton.

The resignation of William Harrell,
 supervisor of road district No. 4, was
 accepted and his bond exonerated.

The contract for the improvement of
 Nehalem road No. 77, between the
 bridge near Olney and the 16-mile post
 was awarded to P. M. Blaisdell for the
 sum of \$14,500, the cost being at the
 rate of \$1850 a mile. Mr. Blaisdell is
 required to furnish a bond for \$2000.
 The work is to be completed by June
 1, 1908. The county judge and the
 clerk were authorized to sign the
 contract on behalf of the county.

After this action the court adjourned
 to meet May 15.

Kidney complaint kills more people
 than any other disease. This is due to
 the disease being so insidious that it
 gets a good hold on the system before
 it is recognized. Foley's Kidney Cure
 will prevent the development of fatal
 disease if taken in time. T. E. Laurin,

 But ah! it is the worst of pain,
 To love and not be loved again."
